

# The Greatest Discovery

Music by Elton John, Lyrics by Bernie Taupin

G Bm  
Peering out of tiny eyes, the grubby hands that grip the rail  
F C G  
Wiped the window clean of frost, as the morning air laid on the ledge  
G Bm  
A whistle awakened someone there, next door to the nursery just down the hall  
F C  
A strange new sound you never heard before, a strange new sound that makes  
G Gsus G  
boys explore  
G Bm  
Tread neat so small those little feet, amid the morning his small heart beats

F C G  
So much excitement yesterday, That must be rewarded must be displayed

C D  
Large hands lift him through the air  
Bm Esus E  
Excited eyes contain him there  
C G  
The eyes of those he loves and knows  
F Dsus D  
But what's this extra bed just here

G Bm  
His puzzled head tipped to one side, amazement swims in those bright green eyes  
F C G  
Glancing down upon this thing, That makes strange sounds, strange sounds that sing

G Bm  
In those silent happy seconds, that surround the sound of this event  
F C G  
A parent smile is made in moments, they have made for you a friend  
Am D

And all you ever learned from them  
Bm Esus E  
Until you grew much older  
Am C  
Did not compare with when they said  
G Bm Em G7  
This is your brand new brother  
C D G  
This is your brand new brother 2x
